Product code: 2nd stage hose, 2nd stage cover

Comments: Replace 2nd stage & Octo hoses. Replace valve housing, Replace 2nd stage cover.

IMPORTANT

We strongly recommend you test serviced equipment in a safe confined water such as a swimming pool prior to use in open water.

We have no liability to wet test valves, most manufacturers suggest you perform a vacuum test prior to use, in addition to any normal equipment checks.

It is our policy to seek training and advice from the equipment suppliers or manufacturers, however we reserve the right to use our judgement in the servicing of equipment as to which parts to replace. This does not affect any statutory rights.

We will not replace items that are not standard service kit parts without your permission, such as mouthpieces. We will not inspect under hose protection, unless specifically asked, consoles are not serviced unless specifically asked.

All work is warranted for 3 months if tamper paint seals are unbroken. Some valves may require slight adjustment after 3 uses, if you feel your valve has bedded in slightly loose or tight, please call in this free of charge, usually, while you wait.

If your valve tastes strange, don't be alarmed, we only use non toxic cleaning agents and this taste will disappear after a few dives.

Next service due: 27/10/16 Technician: Bob Date: 27/10/15
